Problems :

Heartbeat Signal Lost

- JETE-FR11 Smart Watch keeps an eye on your heart rate during exercise and your daily life. Sometimes the watch signal may not match. If this happens, the missing heart rate will appear on the dot line.
- If you cannot use the heart rate signal, first of all, make sure you are wearing the watch correctly, avoid fitting it too high or too low, and also not too tight or not too loose on your arm. Once adjusted, click the heart rate icon to retrieve the data. If there is still no heart rate data, check the heart rate function in the app to make sure it is active.

Other Problems :

If your phone cannot connect to the watch, click the Bluetooth settings on your phone and check if there is a JETE-FR11 battery. If there is, it means there is no problem in the Bluetooth signal, Please check maybe the clock is connected to another cellphone, please disconnect immediately. IOS users should click Settings - Bluetooth - Forget device and connect.

Caution :

1. JETE-FR11 data of heart rate, blood oxygen, and blood pressure, cannot be used as a benchmark for diagnosis.
2. Self-diagnosis and self-treatment are dangerous. Only a qualified person can diagnose and treat high blood pressure, or other heart diseases. Please contact a doctor for further diagnosis..

3. The data of heart rate, blood pressure, etc. of the JETE-FR11 watch may not be completely accurate due to factors such as external and environmental interference, improper use, and the user's physical condition.
4. Do not give medicines and treatments on the basis of those provided by the JETE-FR11 watch, and should follow the doctor's advice. and we are not responsible for any inaccuracies about the data and consequences provided.

Maintenance :
